

Saffron Of Persia

Iranian saffron

Saffron of Persia is a trusted and premium brand offering pure and authentic Iranian saffron.

It sources Super Negin saffron directly from selected farms in Iran, known for producing the finest aroma, color, and taste.

Processing and packaging are carried out under international standards to preserve the saffron's freshness and quality.

Saffron of Persia is a symbol of authenticity, quality, and trust in the global saffron market.

A perfect choice for those who settle for nothing but the best.

Saffron Of Persia

Iranian saffron

Saffron of Persia proudly presents a premium collection of luxurious saffron gifts and culinary treasures. Sourced from the renowned saffron-growing regions of Qaenat and Mashhad—the heart of Persian saffron—our products are crafted exclusively from Super Negin grade saffron, known for its superior potency, purity, and vibrant color.

Every saffron thread is carefully handpicked, offering unmatched color intensity, a deep floral aroma, and a warm, earthy flavor that transforms any dish, dessert, or tea ritual into a truly premium experience. To unlock its full essence, gently crush a few threads and soak them in warm water (or ice) for 30–20 minutes before use.

Our brand is recognized for its exceptional quality and elegance. We offer our saffron in a range of beautiful packaging options—from economical packs to velvet boxes and artisan wooden containers, making it ideal for both personal use and gifting.

Saffron of Persia exports globally from the UAE, delivering to destinations including Europe, the UK, Canada, and the United States. With a strong reputation and commitment to excellence, we stand among the top-tier saffron producers in the world.

Types of saffron

Super Negin

The highest quality saffron – fully red, long, thick, and flawless stigmas.

- Features: Maximum coloring strength and purity
- Uses: Top-grade exports, medical & luxury uses

Negin

Long, thick, and unbroken stigmas – more elegant than Sargol.

- Features: Excellent coloring, premium appearance
- Uses: Premium exports & luxury packaging

Sargol (All-Red)

The purest part of saffron – only the red stigma tips, no yellow style.

- Features: High coloring power, strong aroma, no style
- Uses: Household use & export

Pushal

Includes the red stigma with a small portion of the yellow style.

- Features: Good coloring, more natural appearance
- Uses: Everyday cooking, trustworthy authenticity

Dasteh / Bunch

The whole saffron thread (red stigma + yellow style) tied together traditionally.

- Features: Minimal processing, high authenticity
- Uses: Traditional packaging, visible originality

Super Negin Saffron

Super Negin Saffron – A Signature of Persian Excellence
Characterized by long, thick threads with a deep crimson hue and intense aroma, Super Negin saffron represents the highest grade of quality. Carefully hand-selected and sourced from Iran's golden fields, it offers unparalleled flavor, vivid color, and prestige. Ideal for luxurious gifting and gourmet culinary creations, this saffron embodies refinement in every strand.

Health Benefits of Super Negin Saffron

- ✿ **Mood Enhancement:** Contains saffranal, known to help reduce anxiety and improve emotional balance.
- ✿ **Potent Antioxidant:** Supports cellular detox and helps combat signs of aging.
- ✿ **Digestive Aid:** Promotes stomach health and eases bloating or discomfort.
- ✿ **Natural Sleep Support:** Offers calming effects that contribute to better sleep quality.
- ✿ **Cardiovascular Wellness:** Crocin compounds may improve blood circulation and support heart health.
